Well, everyone I know has been waiting anxiously for this. Instead of 11, our family now numbers 100 (0011 in base 2 = 3 in base 10 while 0100 in base 2 = 4 in base 10).

Isaac Ethan Maxson was born in Skopje, Macedonia around 9:30am (local time). He weighed 3kg and about 500g more (the nurse said he weighed 3kg and ...umm...about 500g). He was also 52cm long. So, here it is in a table:

Name:	Isaac Ethan Maxson
-------	--------------------

Sex:

Male

Weight:

3.5kg (ish...about 7lbs 11oz)

Length:

52cm (about 20.5 inches)
